

Throughout the centuries, Man has strived to gain insight into the core features of his own personality and his own destiny. While many disciplines from Astrology to DNA mapping give us clues, finally there is a method that is designed to integrate several powerful systems into one highly accurate tool.

Human Design Analysis is an exclusive, in-depth personality analysis based on the traditions of Astrology, the Chakra system, the I-Ching and the Kabbala.

A reading can give you a genuine snapshot of your own innate characteristics. It will reveal your true gifts as well as your vulnerabilities. A Human Design reading can tell you what key role and purpose you play, along with explaining what you are meant to do here in this life. Additionally, a reading can provide you with the tools to assist you in enhancing your self-knowledge. A reading can give you a feeling of self-empowerment and assist you in directing your life with greater confidence, ease and clarity.
